StockMaster Tracker is an Auto-Safe and easy to use all terrain, mobile platform ladder.

StockMaster Tracker is a versatile and easy to use mobile work platform. With two large diameter wheels it moves easily over sealed and unsealed surfaces or slopes making it ideal for indoor or outdoor use. Featuring a Tilt, Steer and Brake control it is fast and easy to move around. Take hold of the Control, raise the unit to the mobile position and move to the job. Release the control and Tracker automatically returns to the stationary Mode where it is braked and totally stable

One control does it all creating a much safer product.

With the Tilt, Steer and Brake control actuated, you are positioned away from The front of the ladder to allow a normal walking step. Tracker moves easily To the job in much less time than competing products and requires no set up When you get there. Tracker is easier and faster to move around and saves Time on the job.

StockMaster Tracker is a modular design enabling parts replacement in the event of accidental damage. It is manufactured from high quality materials and built to last. With reasonable care StockMaster Tracker will give many years of service, and cost less in the long run.

StockMaster Tracker Platform Ladders . . .
